

IPC and BNS Blind Expert Review Packet

Independent legal labeling and quality review for 10 evaluation cases

This packet asks a qualified lawyer or law professor to establish independent reference answers before any model output is disclosed. It then provides a separate rubric for reviewing citations, grounding, and IRAC quality after the gold labels have been locked.

Blind-review rule. No model prediction, retrieved provision, citation, or generated IRAC text appears in this packet. Do not request or open those materials during Phase A.

Independent Review Declaration

- ☐ I did not view model predictions before completing Phase A
- ☐ I used independent legal judgment and authoritative materials
- ☐ I identified uncertainty instead of guessing missing facts

Signature: _____ Date: _____

What To Return

Return this completed packet and the two completed JSONL forms supplied with it. The project coordinator will run the automated comparison only after both review phases are complete.

Review Procedure

Phase A Independent Gold Labels

1. Read only the case facts in this packet. Treat omitted facts as unknown and do not infer them from a likely model answer.
2. Consult authoritative legal materials and decide the applicable framework: IPC only, BNS primary, multi-period review, or clarification required.
3. Record the single best provision and up to three acceptable retrieval targets. Include the Top-1 provision in the Top-3 list.
4. Explain ambiguity, assumptions, missing facts, or alternate acceptable provisions in Comments and Corrections.
5. Complete Phase A for all 10 cases, sign the declaration, and return or lock a dated copy before seeing any model output.

Phase B Output Quality Review

Phase B starts only after the Phase A answers have been preserved. The coordinator may then provide a separate case-matched output excerpt. The sealed prediction file itself is not part of this packet.

For each case, verify the cited document, page, section, and support for the generated statement. Rate each IRAC component from 0 to 2, assess grounding, and write a correction where needed.

Rating Definitions

Area	Rating	Meaning
Citation	Correct / Partly correct / Incorrect	Check document, page, provision, and claimed support.
IRAC	0 / 1 / 2	0 incorrect or unsupported; 1 partly correct or incomplete; 2 correct and sufficiently supported.
Grounding	Grounded / Partly grounded / Ungrounded	Check whether the answer remains within authoritative cited text.

Authoritative Materials

- The Indian Penal Code, 1860 - Ministry of Home Affairs, Government of India
- The Bharatiya Nyaya Sanhita, 2023 - Gazette of India, Ministry of Law and Justice
- BNS Commencement Notification S.O. 850(E) - Gazette of India, Ministry of Home Affairs
- Comparative Chart of Commonly Used Sections of IPC vis-a-vis BNS - Bureau of Police Research and Development

Use the governing statute and commencement notification as primary authorities. A comparative chart may assist navigation but should not replace verification against the statutory text.

Case blind-001

Case facts. On 20 June 2024, property was dishonestly moved out of another person's possession without consent.

Scope. Base the answer only on these facts. Record legally material missing information instead of assuming it.

Phase A Independent Gold Label

Correct applicable law

☐ IPC only ☐ BNS primary ☐ Multi-period review ☐ Clarification required

Decision field	Expert response
Correct Top-1 provision	Code: _____ Section: _____ Provision title or description: _____
Material clarification needed	_____ _____

Acceptable Top-3 provisions

Rank	Code	Section	Why this is an acceptable retrieval target
